Each year, the KAZOOcon experience breaks new barriers. Our vision for the event is for attendees to engage with industry leaders, technical masters, creative developers, and telecom evangelists to learn about the evolving technologies breaking the barriers across unified communications.

Our first priorities when planning KAZOOcon are establishing innovative opportunities and value-add for our strategic partners. KAZOOcon attendees get to hear about the latest products and enhancements from telecom pioneers, network with knowledgeable industry experts, and be part of bleeding-edge telecom and mobile technology developments.

Since KAZOOcon 2018, we've made several game-changing advancements, and we are excited to set your goals and expectation for the year to come! Attending KAZOOcon gives you early access to the 2600Hz roadmap, as well as a chance to share your input on where the industry is going and what you want to see from KAZOO.
